

COMPANY PROFILE

Genius United General Trading & Contracting Co.

Established in 1996 in Kuwait, Genius United General Trading & Contracting Co. has built a strong reputation as a trusted provider of trading, contracting, and project support services across various sectors. With nearly three decades of experience, the company has consistently delivered high-quality solutions that meet the evolving needs of clients in both the public and private sectors.

Driven by a commitment to excellence, professionalism, and customer satisfaction, Genius United combines industry expertise with innovative approaches to ensure the successful execution of every project. The company's diversified operations encompass general trading, construction and contracting services, procurement, supply chain solutions, and specialized project management.

Over the years, Genius United has established long-term relationships with clients, partners, and suppliers by maintaining the highest standards of quality, safety, and integrity. Through a dedicated team of professionals and a customer-focused approach, the company continues to contribute to Kuwait's economic growth and infrastructure development.

Today, Genius United General Trading & Contracting Co. remains committed to delivering reliable, efficient, and sustainable solutions while striving to exceed client expectations and create lasting value for all stakeholders.

ABOUT US

GENIUS UNITED was born from a powerful belief: that the greatest challenges in civil construction are not solved by individuals, but by the collective power of a unified team. In the demanding and dynamic landscape of Kuwait, where ambition meets scale, individual effort is not enough. It requires a symphony of brilliant minds, cutting-edge technology, and unwavering determination, all working in perfect harmony.

Our name embodies this core philosophy. "GENIUS" represents the exceptional intelligence, innovative spirit, and engineering excellence we bring to every project. "UNITED" reflects our collaborative ethos—the seamless integration of top-tier engineers, skilled managers, dedicated laborers, and trusted partners.

QHSE

At GENIUS UNITED our greatest responsibility is to the people we employ, the clients we serve, and the planet we share. This commitment is formalized in our integrated Quality, Health, Safety, and Environment (QHSE) management system, which forms the ethical and operational bedrock of everything we do.

QUALITY: A RELENTLESS PURSUIT OF EXCELLENCE

We are committed to delivering projects that not only meet but exceed expectations in terms of durability, performance, and value.

HEALTH & SAFETY: THE ZERO-HARM IMPERATIVE

The well-being of our employees, partners, and the public is non-negotiable. Everyone deserves to go home safely every day.

ENVIRONMENT: BUILDING A SUSTAINABLE LEGACY

We are stewards of our environment, committed to preserving it for future generations through responsible practices

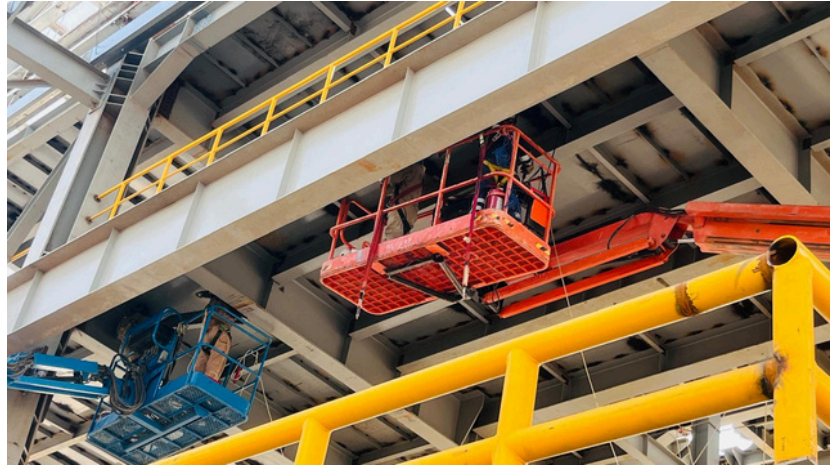

At GENIUS UNITED our greatest responsibility is to the people we employ, the clients we serve, and the planet we share. This commitment is formalized in our integrated Quality, Health, Safety, and Environment (QHSE) management system, which forms the ethical and operational bedrock of everything we do.
